PROFILE

A motivated Computer Science student at RUPP seeking a Web Developer role, with skills in building responsive interfaces and a basic understanding of backend development, including APIs and databases.

EDUCATION

Bachelor of Computer Science

2022- Present

I am currently in my final year at the Faculty of Science, Royal University of Phnom Penh.

Web Development at ANT

2025 - Present

I am currently study web development at ANT center

Samsung Python Program - RUPP

2024 - 2025

Graduated from the Python Program at RUPP

High School

2016 - 2022

Graduated from Phnom Srouch High School

PROJECTS & EXPERIENCE

E-commerce

Full-stack e-commerce platform with user authentication, product and order management, and image uploads. The frontend is hosted on Vercel, and the backend is deployed on Render with environment variables configured and CORS set up to support both local and production frontends.

Technologies Used: Tailwind, Vue.js, Node.js, Express.js, MongoDB

Blog

Built a content-driven web application designed for long-form articles, featuring a clean, typography-focused UI for enhanced readability.

Technologies Used: Javascript, Bootstrap, HTML, CSS

Internship at SAIRL

Built a Vue.js front-end using Pinia for state management and Axios for API integration, with a focus on responsive UI.

Technologies Used: Vue, Typescript, Tailwind

ACHIEVEMENTS

Received a government-sponsored web development scholarship at ANT Training Center.

Received Python scholarship programming short course from RUPP

Graduated Cambodian National Exam (Bac II).
